

557: Inertial Systems, Kalman Filtering, and GPS/INS Integration

May 13-17, 2024 9:00-4:30 EST ♦ Taught Remotely

"It is easy to tell that this course is taught by passionate instructors, and that comes through both in their mastery of the subject material, and enthusiasm in presenting the subject matter in a concise and easy-to-follow manner. Despite the difficulty of the material, this course is one of the most well-taught courses I've had the pleasure of taking. I urge both of the instructors to keep teaching, as an instructor's passion is instrumental in a student's absorption of material. Needless to say, they both have passion in spades." — Aaron Bruinsma, L3 Harris Wescam
