Warranty & Support

Standard warranty & support conditions apply as indicated in the sales contract. Software maintenance will be ended by **01 September 2023** and repairs will be offered until **01 September 2025**. Septentrio keeps the right at its own discretion to decide on the best way to provide customers with a repair solution (considering product

and components availability) while still providing the best standard of service and support to its customers. Broken units can, if possible, still be fixed by our Repair service until end of the warranty and support period. In such case please follow the standard Septentrio's RMA procedure.

While Septentrio regrets any inconvenience this announcement may cause, we appreciate our business relationship and are fully committed to supply your current and future product requirements.
